APPROVAL _____ OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second, but not to exceed 1,447.93 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before November 12, 2000

Proof of completion of work shall be filed on or before December 12, 2000

Application of water to beneficial use shall be made on or before November 12, 2005

Proof of the application of water to beneficial use shall be filed on or before December 12, 2005

Map in support of proof of beneficial use shall be filed on or before N/A

(PERMIT TERMS CONTINUED)

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit is issued with the requirement that a comprehensive monitoring plan be submitted to the State Engineer for approval within ninety (90) days from the date of the issuance of this permit. The plan shall be submitted and approved by the State Engineer prior to any pumping of the well.

The permittee is required to submit an annual report of the monitoring results. Upon review of the annual monitoring results the State Engineer will retain the right to reduce the pumping from this well or to take any other action that may be necessary to protect the public interests or to prevent conflicts with prior existing rights.

The total combined duty of water under Permits 49414, 49660, 49661, 49662, 49978, 49979, 49980, 49981, 49982, 49983 and 49984 shall not exceed 8,600.0 acre-feet annually.
